2015 Two-Color Delight Mystery Quilt – REVEAL Clue #5

It's time to put it all together!

Two-Color Delight – SCRAPPY Version

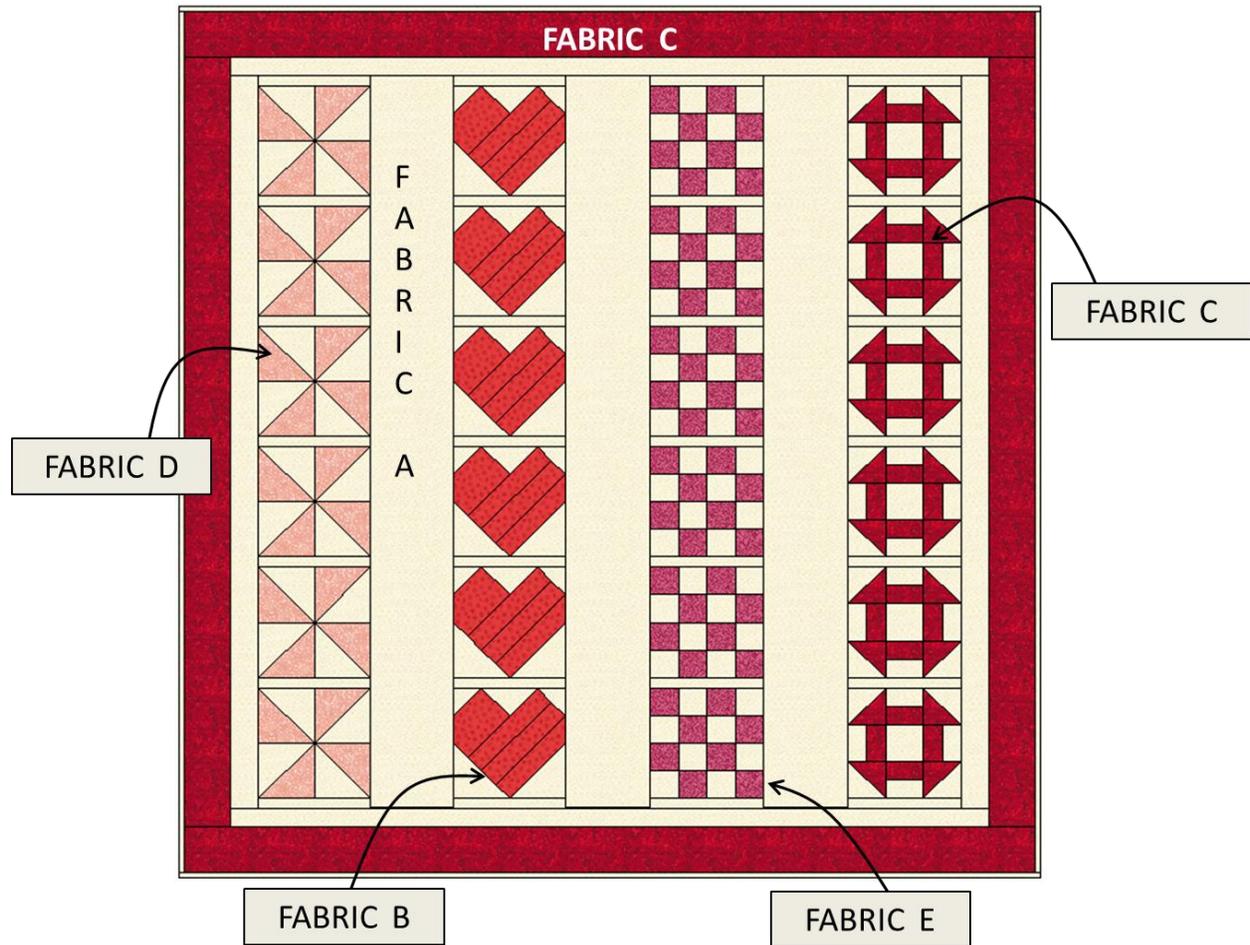

Your finished quilt will be 92 inches x 94 inches.

Simply Colorful

Two-Color Delight – MORE CONTROLLED Version

Here's the layout for a more "controlled" and less scrappy version, also 92 inches x 94 inches.

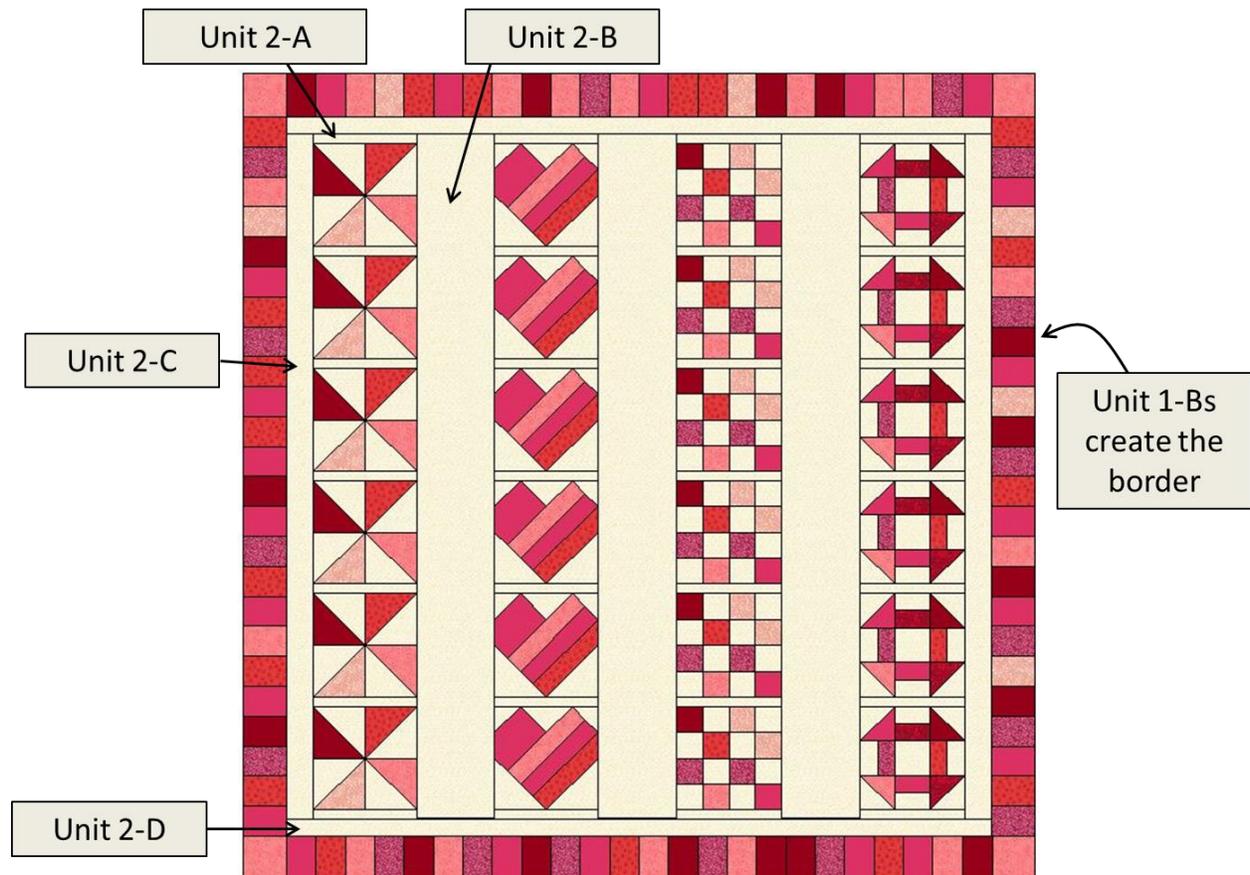

Simply Colorful

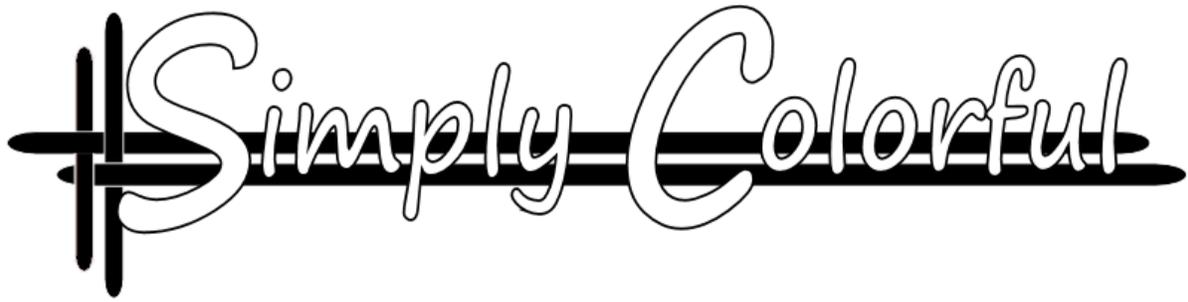

Quilt Top Assembly

First, sew each set of blocks together into columns with Unit 2-A pieces in between.

1. All Pinwheels w/ Unit 2-As
2. All Hearts w/ Unit 2-As
3. All 16-Patches w/ Unit 2-As
4. All Double Monkey Wrenches w/ Unit 2-As

Then sew all the columns together, with Unit 2Cs on each side and Unit 2-Bs in between. Sew a Unit 2D on each end. Then use all remaining Unit 1-Bs (or FABRIC C) to form the outer border.

Sandwich and Baste the Quilt

Clear a nice big area to position and smooth out the 3 layers of your quilt.

- Backing goes down on the floor or table first, with wrong side facing UP.
- Batting is placed on the Backing. I use Warm & Natural or Cream Rose Mountain Mist, both 100% cotton.
- Your pieced quilt top creates the top layer of the sandwich, with right side facing up.

Smooth out all 3 layers, starting from the center and working out with your hands. Pin with safety pins or hand baste so the layers are tacked together, again starting in the center and radiating out. I try to baste across and down in rows about my hand's width apart.

Binding

Use the left over backing and/or scraps for the binding.

First, create a continuous piece that measures 380 inches by 2 and ¼ inches. Iron in half the long way, right side facing OUT. Sew the binding to the front edge of the quilt by machine. I use about a 3/8th inch seam. (slightly bigger than ¼")

As a last step, fold the binding to the back and hand sew it down for a nice, clean finish.
